Luan Faber

Software Developer

Dedicated software developer with a proven track record of contributing to successful projects, including the award-winning app **Files**, at the Microsoft Store App Awards 2022. Recently graduated from a comprehensive 5-year education program encompassing internships and diverse academic projects.

Present Experience

2019 - 2024 • 5 yrs

TEC - Technical Education Copenhagen | Ballerup Telegrafvej 9

Software Developer education & internship

- Participated in a 5-year Software Developer CTE program that covers software engineering, internships, web development and database management.
- Developed multiple projects, including but not limited to:
 - **School Application:** Developed a comprehensive web-based school application integrating scheduling, user authentication, authorization, and administration features. showing expertise in technologies such as React, Next, NextAuth, .NET API, C#, TypeScript, MySQL, and Node.js.
 - **Train Schedule:** Used DSB API to Build an efficient web system to display and manage train schedules, enhancing accessibility and user experience.
 - **Self-Driving Miniature Car:** Engineered a self-driving car prototype, demonstrating proficiency in embedded systems and C++ programming.
 - **Heart Rhythm Reader:** Created a medical device capable of reading heart rhythms, exhibiting skills in hardware integration and software development.
- Collaborated effectively with team members, during projects by participating in regular meetings and actively engaging in code reviews and discussions.

Mar 2023 - Jun 2023 • 4 mos

Files App | Award winner 2022 | <https://files.community/>

.NET Software Developer

- Collaborated closely with senior developers and QA testers at Files by effectively communicating features, bugs, and fixes via task boards.
- Played a critical role in resolving a bug that caused crashes in right-to-left (RTL) languages within the application.
- Demonstrated proficiency in C# and .NET by implementing a new feature to enhance the grid layout, improving overall functionality and user engagement.
- Participated in code reviews and provided constructive feedback in version 2.5.

Education

Data technician specialized in programming

Technical Education Copenhagen

Issued dec 2023

Credential ID on-paper

Certification

Cybersecurity: Managing Risk in the Information Age

Harvard University

Issued Jan 2021

Credential ID 686314
